

1 Shake things up. We're proud to be a nonprofit with character. We love keeping Austin weird and doing things differently.

2 Lead from the front. As community mentors, leaders and coaches, we lead by example and show kids that even the best athletes and fittest celebrities are real people staying active and healthy.

3 Have fun. Jump around, ride your bike and shake your bones! Do what moves you! Whether your passion is cycling, rock climbing, wake boarding, or running – we're right with you having fun!

4 Touch lives locally. We aim to be impactful on every front. Through programs, media and social, fitness, and family events, we're out reaching locals.

5 Invest in the future - our children. We inspire kids to lead more healthy and active lives – reversing trends of obesity and encouraging confidence and leadership.

6 Commit to a lifestyle. Healthy living starts with leading a lifestyle that makes you feel good inside and out!

7 Support change and innovation. We keep things unique and relevant by staying current on trends, and thinking outside of the box.

8 Start at the source. We aim to create change in lifestyles by appealing to kids. We meet them on their level by offering an outlet for fun, leadership, challenge and adventure.

9 Promote your community. Boneshaker Project is connecting various parts of community through interactions, partnerships, and exposure. We love being the glue for great connections!

10 Be part of a story. Your support helps us tell the story of progress and excitement for healthy living. Our Boneshakers show an evolution of health, fitness, and knowledge.

11 Inspire. Light the fire in others, and empower our youth to feel healthy and confident.

12 Feel good. Giving feels good! Especially giving to an organization that helps others feel good inside and out! Give now: bit.ly/1mQJIYh
